**RE: \$73,285,000 SCHOOL QUALIFIED BONDS OF THE CITY OF NEWARK
PROPOSED TO BE ISSUED ON BEHALF OF THE STATE-OPERATED
SCHOOL DISTRICT OF THE CITY OF NEWARK**

President & Members of the Council:

You have asked us to review a request by the State-Operated School District of the City of Newark to the City, requesting the issuance of a total of \$73,285,000 of School Qualified Bonds on behalf of the State-Operated School District, said bonds having previously been authorized by the City of Newark School District when it operated as a Type II School District, and certain bonds proposed to be authorized by the Mayor and Council of the City of Newark. We have reviewed the presentation of the State-Operated School District of the City of Newark, including the memorandums prepared by the Bond Counsel for the State-Operated School District, McManimon & Scotland, L.L.C. In addition, we have reviewed the appropriate sections of the Title 18A of the New Jersey State Statutes, and in particular, N.J.S.A. 18A:24-1 et seq. which governs the issuance of bonds by School Districts of the State of New Jersey, and N.J.S.A. 18A:7A-46.1 et seq. which governs the authorization and issuance of Bonds by a State-Operated School District. In addition, we have reviewed such other laws and matters as we deemed necessary and appropriate thereto.

The State-Operated School District is requesting that the City of Newark issue a total amount of \$62,347,597 of bonds that were authorized when the School District operated as a Type II School District. We have been advised by the School District's Bond Counsel, that the Bonds were authorized at referendums by the citizens of the City of Newark held in 1983, 1989, 1991, and 1993. We have not received or reviewed the transcripts of those proceedings as of this date. We have been further advised by Bond Counsel for the School District that from those authorizations,

there is total amount of unissued bonds equaling \$73,285,000, of which the School District wishes the City to issue all but \$9,937,403. The \$9,937,403 authorization has been canceled by the State-operated School District.

The School District is requesting that the City issue these bonds pursuant to the authority granted under N.J.S.A. 18A:7A-46.4 which provides that:

"any authorization of notes or bonds effective prior to the date of the appointment of the State District Superintendent shall be issued in the matter prescribed by the "Local Bond Law" (N.J.S.A. 40A:2-1 et seq.)".

June 18, 1997

Assuming the previous adoption proceedings are complete and comply with the applicable statutes, pursuant to the provisions of the Local Bond Law, in order to issue the bonds, the City of Newark must adopt a resolution combining the previous authorizations, authorizing a single issuance of bonds, and establishing the terms of the sale. The Bonds will then sold at public sale, upon such terms as approved by the Council, subject to the review and approval, including approval of maturity schedules, by the Local Finance Board pursuant to the City's position as a Qualified Bond Issuer, and the request to have said school bonds issued as "School Qualified Bonds" under the School Qualified Bond Act, N.J.S.A. 18A:24-85 et seq.

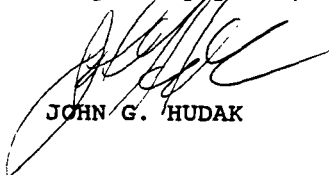

We have been further advised that the State-Operated School District has made application to and received approval from the Local Finance Board to issue these bonds, including bonds not yet authorized by the Newark City Council, as Qualified Bonds.

The State-Operated School District has also requested that the Council authorize the issuance of \$9,937,403 of bonds for certain computer equipment and upgrades for the State-Operated School District. We have been advised that this request was approved by the Capital Project Review Board pursuant to N.J.S.A. 18A:7A-46.2, which provides, pursuant to N.J.S.A. 18A:7A-46.3, that such bonds and notes as approved by the Capital Projects Review Board shall be financed through the issuance of the bonds or notes in accordance with the provisions of N.J.S.A. 18:24-1 et seq., and the provisions of the Local Bond Law. In effect, the procedure is similar to the procedure for a Type I School District under which the municipality authorizes, by bond ordinance, the bonds or notes to be sold on behalf of the School District to fund capital projects of the School Districts, after same were authorized by the Capital Projects Review Board. The Capital Projects Review Board in effect serves a function similar to the Board of School Estimates.

In addition, as the City of Newark is a Qualified Bond Issuer, and any ordinance authorizing the financing of a capital project for the School District would require, prior to adoption by the City Council, approval of the Local Finance Board.

Therefore, in order for the School Board to finance the currently proposed capital projects, the City of Newark, as the issuer of said bonds, will have to approve a bond ordinance for the unauthorized portion of said issuance pursuant to procedures as set forth in the Local Bond Law. In addition, a resolution combining all authorizations, including the bond ordinance, as well as authorizing the issuance of and terms of the bonds, will have to be adopted prior to any issuance of same by the City.

Very truly yours,

JOHN G. HUDAK

Temporary President Tucker called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

MR. FRANK HURTZ, 402 MT. PROSPECT AVENUE, NEWARK, NEW JERSEY addressed the Members of the Municipal Council opposing this ordinance and questioned what rational and justification would be used to extend the hours to sell alcoholic beverages.

Council Member Rice explained the procedure to the speaker.

Council Member Crump stated she would consider the elimination of selling alcoholic beverages on Sundays.

MR. PHILLIP LAVECCHI, AIDE TO MAYOR SHARPE JAMES, 139 CONGRESS STREET, NEWARK, NEW JERSEY addressed the Members of the Municipal Council stating Mayor Sharpe James requested the following remarks in reference to Ordinances 6-Ph, S & F-b and S & F-c be made a part of the record of this meeting. "My esteemed colleagues, you have before you this afternoon a proposed ordinance sponsored by West Ward Councilman Ronald L. Rice that would extend the hours in which alcoholic beverages are sold for off premises consumption from the current 10 P.M. to 3 A.M. This is a proposal that tears at the very fabric of our neighborhoods. Neighborhoods that we are working so hard to revitalize and strengthen. Finally we are seeing the fruits of our long labors to rebuild our community with reductions in crime and improvements in our quality of life. Certainly anyone who wants to purchase liquor and consume it off premises should be able to do so by 10 P.M. It would be irresponsible and unconscionable on the part of the Governing Body to extend this privilege to 3 A.M. Doesn't this undermine the efforts of the Quality of Life Committee created by the City Council and Chaired by Councilwoman Gayle Chaneyfield Jenkins who have devoted countless hours to touring the city, meeting with volunteers and designing proposals and programs all aimed at creating a quality environment for Newark residents. What is the message we are sending to our young people, that this is so important that we need to extend the sale of alcoholic beverages until 3 A.M., that we want to encourage loitering and hanging out on street corners drinking, that we want to encourage more individuals to drive while under the influence of alcohol, that we want to encourage public drinking and the littering that usually accompanies it. We have begun to address our problems. We are fighting a war against drugs. Thus, why start another war by increasing the availability of a controlled substance that clearly can have dangerous results if not handled in moderation. Why put our children, adults and neighborhoods at great risk by allowing for an increase in the consumption of alcohol between the hours of 10 P.M. and 3 A.M. The only argument posed by some is that without the extension of these hours individuals are forced to purchase alcohol in other communities outside Newark. My response to this "So Be It." Newark needs a better image and a better quality of life, not more sales of alcohol that profit out-of-towners. I watch the Council meetings on television and I have attended many in person. Many of the same individuals who come before the Governing Body, week after week, month after month, year after year, raise the same concerns to me in letters, on the phone and when they meet me on the street. Please help us do something about the quality of life in our neighborhoods. Arrest those unsavory persons who loiter drunkenly on the corners, streets and the hallways of our buildings. Persons who spew obscenities and harass our children and elderly. I ask each Council Member, is passing an ordinance like this the humane and responsible answer to their pleas. I think not. I believe that you, the Honorable Members of the City Council, care about the City just as I do and I believe, I want to believe that your vote on this measure will not be clouded by friendships or outside pressures and influences. I urge you today to do the right thing, to do the moral and appropriate thing, to protect our residents and to preserve this City that we all love so dearly. Vote no on this proposal and vote yes for the City of Newark."

5.(b)(6) There shall be no significant deterioration in the quality of any signal on the Cable System from the point of origin of a signal, wherever originated, through the headend; and from the headend to the point of reception. This requirement applies, without limitation, to all PEG Channels. "Deterioration" means any measurable signal change below the standards specified by the FCC, where applicable, or, the extent permitted by State law, by the City in other instances including, but not limited to, ghost images, signal interference, distortion, noise and signal error rate.

5.(b)(7) The master headend shall have adequate ventilation and space reserved such that the headend could provide at least 120-plus channels in full configuration and shall develop signals of high quality throughout the service area (including on channels retransmitting signals received from other locations and transmitted through the headend), and the headend shall have adequate ventilation and space to be able to meet or exceed applicable design and technical requirements and in order to reasonably accommodate equipment for the City.

5.(b)(8) To the extent permitted by State law, the Grantee shall include equipment in its Cable System so that pay-per-view programming can only be activated by authorized Subscribers.

August 6, 1997

5.(b)(9) The Grantee shall design the Cable System so that channel capacity may be readily expanded through digital video compression or similar appropriate technology without compromising service quality or requiring significant alterations, upgrading or reconstruction of the major rebuilt Cable System components.

5.(b)(10) The rebuilt Cable System will be two-way active upon completion of the rebuild.

5.(b)(11) To the extent permitted by State law, the Grantee shall provide the following: All closed-caption programming retransmitted by the System shall include the closed-caption signal. Grantee shall provide a remote control device to those Subscribers who are mobility limited, or where a member of the Subscriber's household is mobility limited. For hearing impaired customers, the Grantee shall provide information concerning the cost and availability of equipment to facilitate the reception of all basic services for the hearing impaired.

5.(c) *Status Monitoring* Franchisee shall provide Cable System status monitoring upon completion of the rebuild. At minimum, Franchisee shall provide equipment capable of monitoring the status of the signal quality, signal level, and back-up power supply conditions throughout the Cable System.

5.(d) *System Design: Equipment Used.* At the time of the rebuild, the Grantee shall use equipment generally used in state-of-the-art Cable Systems in other cities comparable in population to the City. In addition, Grantee shall install equipment to retransmit in stereo those program signals provided to Grantee in stereo, including local broadcast signals. Grantee shall provide back-up power supplies to power all elements and services of the Cable System in the event of an electrical outage. Grantee shall: (a) provide continuous back-up power supplies at the headend; (b) provide at least two-hour back-up power supplies at the fiber nodes and at all active components; (c) shall start the back-up power supplies automatically upon failure of commercial utility AC power; (d) shall revert automatically to commercial power when it is restored; and (e) shall prevent the back-up power source from powering a dead utility line. Grantee shall also provide modulators, antennae, amplifiers, and other electronics that permit and are capable of passing through the signal received at the headend with minimal alteration or deterioration.

5.(d)(1) *System Design: Construction Testing Requirements:*

5.(d)(1)(i) To the extent permitted by State law, the Grantee shall perform preactivation quality control on all Cable System components and equipment. In the case of passive components, this will include testing to verify compliance with manufacturer's specifications. All trunk and distribution cable shall be inspected and sample tested to verify compliance with manufacturer's specifications for frequency response and structural loss. All trunk and distribution amplifiers shall be bench-tested. No component will be used in the Cable System which fails to meet manufacturer's specifications. The manufacturer's specifications should meet or exceed industry standards.

5.(d)(1)(ii) To the extent permitted by State law, the Grantee shall perform acceptance tests on each construction area segment prior to Subscriber connection. The tests must demonstrate that the Cable System components are operating as expected. The Grantee shall have the obligation, without further notice from City, to take corrective action if any segment is not operating as expected.

5.(e) *System Design: Proof of Performance Tests.* To the extent permitted by State law, the Grantee shall perform proof of performance tests designed to demonstrate compliance with this Ordinance, the Cable Law and FCC requirements. The Grantee shall provide the proof of performance test results promptly to the City upon request. The City shall have the right to require the Grantee to perform additional tests based on the City's investigation of Cable System performance or on Subscriber complaints.

5.(f) *System Design: Emergency Alert System* The Grantee shall install and thereafter maintain for use by the City an Emergency Alert System ("EAS"). This EAS shall be capable of remote activation by telephone by a representative of the City to override the audio and video on all channels on the Subscriber Network in the event of a civil emergency and for reasonable tests. The

August 6, 1997

Grantee shall also provide a device to all hearing impaired Subscribers such as to alert the hearing-impaired that the EAS system is activated. The City will provide reasonable notice to the Grantee prior to any test use of the EAS. Grantee will publicize the availability of the EAS and devices described in this paragraph.

5.(g) *System Design: I-Net.*

5.(g)(1) Interim I-Net: Until the I-Net described in Section 5(g) is completed and made operational by Grantee, the City and authorized Users designated by the City shall have exclusive use, at no cost to the City or such authorized Users, of an interim I-Net. The interim I-Net shall provide dedicated *downstream* capacity over the existing subscriber network to up to 60 I-Net sites, and dedicated *upstream* capacity from up to five (5) designated I-Net origination sites to the Cable System headend.

The interim I-Net shall support video and data applications. The interim I-Net shall have at least two (2) channels and a minimum of 12 Mhz capacity in both directions. The frequency reserved for the interim I-Net shall be used exclusively by the City and shall not be used for subscribers, commercial users, or any other users not designated by the City. The interim I-Net shall be activated in both directions within 90 days of the granting of the franchise.

The interim I-Net shall support the transmission of broadcast NTSC video that meets or exceeds Federal Communications Commission (FCC) standards to all User sites. Up to two (2) channels of video shall be broadcast over the subscriber network on dedicated downstream bandwidth. The interim I-Net shall support video origination from designated sites over up to two (2) channels on the dedicated upstream bandwidth. Interface equipment at the headend shall support the simultaneous retransmission of video from origination sites over the dedicated subscriber downstream channels. The Grantee shall provide video modulation equipment at the I-Net origination sites and the headend. The Grantee shall also provide video and audio scrambling and descrambling equipment at the headend, I-Net origination sites, and I-Net receive sites to prevent unauthorized viewing.

The interim I-Net channel capacity (2 – 6 Mhz channels in both directions) not in use for video

August 6, 1997

transmission shall be available for data transmission. The interim I-Net shall support two-way data communications over the existing subscriber network to up to five (5) designated I-Net sites. Grantee will ensure that the dedicated upstream capacity on the subscriber network will support data transmission from the five locations. Grantee shall provide data modems and any required support equipment at designated User sites and corresponding units at the Cable System headend, including software and test equipment. The data modems shall be equipped with standard interfaces to allow connection to hubbing and/or switching equipment at the headend. The data modems at the User sites shall provide interfaces to existing data applications. All data services shall be encrypted to prevent unauthorized access.

All equipment shall be provided at no cost to the City. All transmission capacity dedicated to the City's use, all equipment supplied for use on the interim system, and the system as a whole, shall meet or exceed all FCC standards and any other technical standards required by federal or state law, including any such standards amended or adopted by the City in a manner consistent with federal and state law.

Grantee shall ensure that all equipment utilized on the interim I-Net is maintained so that it meets or exceeds the manufacturer's specifications.

5.(g)(2) Grantee shall, in coordination with the rebuild of the subscriber network and at no cost to the City, build and, thereafter, maintain and make available to the City at no cost an Institutional Network ("I-Net") to provide two-way transmission of video, data, and voice communications.

The I-Net shall consist of a dedicated fiber optic network with six (6) fibers to each I-Net site from the Cable System headend or mutually agreed upon interconnection point (I-Net headend). The fiber optic cable for the I-Net shall be single-mode fiber optic cable consistent with the characteristics used in the subscriber network. The Grantee may take advantage of the cost savings to install the I-Net fiber in a shared jacket from the Cable System headend to the Optical Service Node (OSN). The Grantee shall install fiber optic cable from the OSN or other convenient interface point (splice point) to the User site. The fiber optic cable shall be terminated using standard connectors designated by the City inside each User site in an area designated by the City. Upon

August 6, 1997

City request for additional fibers to be included in the fiber bundles to any I-Net sites, Grantee shall provide the additional fibers at the City's expense based on the Grantee's incremental cost.

The Grantee shall provide, at no cost to the City, at the I-Net headend, at each User site, and at those control points that the City may designate, transmission equipment to light the optical fibers and permit conversion from light waves to electrical waves and vice versa. The I-Net fiber shall support the design of a digital fiber optic network to provide data, video, and voice services. In addition, the I-Net will provide support for designated point-to-point analog applications over fiber, independent of the digital backbone network. The digital transmission equipment shall be capable of supporting access at a minimum of 155 Mbps. The I-Net equipment shall be compliant with recognized technical transmission and encoding standards, such as SONET, ATM, and MPEG-2, and shall allow for interoperability with equipment from a variety of manufacturers. The I-Net shall have a high standard of reliability and survivability through the use of dual fiber failsafe technology.

The I-Net will be dedicated to the exclusive use of the City and information transmitted through the system will be managed and controlled by the City. The Grantee will set up a Central Management Facility at a location designated by the City where the City can monitor the I-Net and from which the City can control access to the I-Net and enable data circuits for specific transmissions. The use of the system by the City and authorized Users for the transmission of information, communications, or any other purpose shall be at no cost to the city or such authorized Users.

The I-Net will be interconnected, at no cost to the City, with other communications networks, both public and private, as the City may determine, for the transmission of video, data and voice services. The Grantee shall provide interfaces at the Cable System headend for simultaneous retransmission on the subscriber network PEG channels of video originated on the I-Net.

The I-Net shall be activated after completion of the Cable System rebuild at a time designated by the City. The system shall meet or exceed all Federal Communications Commission technical standards and any other applicable technical standards required by federal or state law, including

August 6, 1997

any such standards amended or adopted by the City in a manner consistent with federal and state law.

5.(g)(3) **Ownership:** Grantee shall own the I-Net. Nevertheless, Grantee shall make the I-Net continuously available to the City and other authorized Users as long as Grantee is lawfully operating in the City. Further, no charges for Grantee's costs for I-Net initial construction, operation, repair, maintenance or use by the City and other authorized Users may be levied on the City by the Grantee. Grantee will ensure that all equipment utilized on the I-Net by such authorized Users is maintained so that it meets or exceeds the manufacturers' specifications.

5.(g)(4) **Headend:** The Grantee shall provide reasonable space at the Cable System headend, hubs, and optical and transfer nodes for switching, control and other equipment required for the utilization of the I-Net. The Grantee shall provide up to 30 square feet of the Cable System headend. The space must have adequate power, ventilation, and clearance to support communications equipment racks and must be easily accessible by the City and its contractors.

5.(g)(5) **Site List:** A list of the sites to which the City expects to direct Grantee to construct the I-Net is attached hereto as Appendix 1. The City may delete sites from the list and substitute new locations, and may add locations up to a total of 60 sites, and may direct the Grantee to construct the I-Net to such locations at no cost to the City.

5.(g)(6) **Applications:** The I-Net will be a fiber optic network designed in accordance with City specifications and will be able to support (among other applications) two-way video, data and voice communications between designated buildings, distance learning applications, and transmission of PEG programming from origination points on the I-Net to the subscriber network.

5.(g)(7) **Expansion Capacity:** If the City wishes to use transmission capacity on the Grantee's Cable System beyond the City's and other qualified User's rights to free use under this Ordinance, the charges for such use shall be freely negotiated on terms and conditions equal to or more favorable to the City than those offered to any major commercial User by the Grantee.

6. Cable System Channels and Facilities for PEG Use.

6.(a) *PEG Channels.* The Grantee shall activate and make available free of charge PEG Channels on the Subscriber Network as specified in this Section 6.

6.(a)(1) Prior to the completion of the Cable System rebuild and at such time as the City requests in accordance with this paragraph, the Grantee shall provide four (4) PEG channels. Unless and until the City requests the fourth channel, Public Access and Government Access will share a single 6 Mhz analog video channel until the Cable System rebuild is completed. However, the City may request a fourth channel if the single channel shared by public access and government access is in use eighty percent (80%) of the time between the hours of 2 p.m. and 11 p.m. five days per week for four (4) consecutive weeks, and at least twenty (20) hours of programming each week is original programming not previously shown on the Cable System. Upon request of the City, Grantee will make the fourth channel immediately available for use as the Government Access Channel.

6.(a)(2) Upon completion of the Cable System rebuild, the Grantee shall provide one channel each for local origination, public access, government access, and educational access on the Cable System throughout the remaining term of the Franchise. These channels shall be 6 Mhz each, and must be capable of transmitting a standard analog video signal. The operator may convert the analog PEG channels to digital format when all Subscribers have the necessary equipment to receive the channels, provided that a total of 18 Mhz of capacity shall remain available pursuant to this section for the City's use for PEG purposes as the City deems appropriate.

6.(a)(3) When the Cable System begins to carry digitally transmitted video channels, the Grantee shall make available additional digital PEG Channels equivalent to five (5) percent of the total number of channels activated on the Subscriber Network and shall provide to Subscribers the equipment required to receive the PEG digital Channels. If permitted by Applicable Law, this equipment shall be available at no cost to Subscribers who take only the digital PEG Channels and no other digital services. Any digital PEG Channel provided shall have the same bandwidth and same transmission quality as the standard commercial digital channels on the Cable System.

August 6, 1997

6.(b) *PEG Access Studio.* Between six (6) and twelve (12) months after the issuance of the Certificate of Approval by the Board, Grantee will commence construction of a "sound-proof" local origination/public access studio at 360 Central Avenue, or such other location as the City Council, by resolution, may approve. The studio will be available to public access Users on a priority basis over other uses of the studio.

6.(c) *Financial Support For PEG*

6.(c)(1) Grantee will provide to a non-profit entity that the City appoints to administer public access, two hundred thousand dollars (\$200,000) each year. This payment shall be disbursed quarterly and shall be increased annually for inflation for the term of the Franchise. Such payments are not franchise fees and the payments will not be deducted from franchise fees due and payable under Grantee's Franchise.

6.(c)(1)(i) In the event that the City decides, upon Grantee's request, that Grantee will administer public access itself, Grantee shall earmark two hundred thousand dollars (\$200,000) per year exclusively to support public access programming, which amount shall be subject to adjustment for inflation as set forth above. If Grantee accepts the obligation to administer public access, it will submit each year to the City, Grantee's annual budgets for public access for the City's review and prior approval.

6.(c)(1)(ii) In addition, Grantee shall produce at least one thirty-minute weekly program providing information and covering activities in the City of Newark which will run daily on the public access channel.

6.(c)(1)(iii) Grantee, or any other entity administering public access shall report to the City of Newark's Public Access Advisory Board ("Advisory Board"). The Advisory Board is responsible for oversight and evaluation of public access. The Advisory Board will annually evaluate the performance of the entity administering public access based upon reports and information from such entity and the public. At least twice per year, the Advisory Board shall convene a public hearing to gather information to use in its evaluation.

The Advisory Board will present its findings and recommendations to the City Council at least annually, and more frequently as the Board determines is appropriate. The City reserves the right

August 6, 1997

to remove Grantee, or any other duly appointed non-profit entity, as administrator of the City's public access programming, and to appoint a new administrator.

6.(c)(2) Grantee shall pay the City two hundred thousand dollars (\$200,000) each year to support operations and replace equipment related to the Government Access Channel. Such payment shall be disbursed quarterly and shall be increased annually for inflation for the term of the Franchise. Such payments are not franchise fees and will not be deducted from the franchise fees due and payable under Grantee's Franchise.

6.(c)(3) The inflation adjustments required under Sections 6.(d)(1) and 6.(d)(2) shall be based on the quarterly inflation factor specified by the FCC under its rate regulation rules. In the event the FCC ceases to regulate cable rates, the United States Department of Commerce Consumer Price Index will be used. All payments shall be due the first day of each calendar quarter.

6.(d) *Other PEG Use.*

6.(d)(1) Grantee shall establish an aggressive outreach and training program in connection with public access. Additionally, Grantee shall have a continuing obligation to provide adequate playback, training, outreach, administrative support and production assistance to access Users, in accordance with community needs as reasonably ascertained by the City.

6.(d)(2) Grantee shall establish a program to train City personnel in the use of video production equipment and technical skills. Grantee will submit an outline of the training program to the City for its review and approval. The training program will begin on a date designated by the City.

6.(d)(3) At the City's request, Grantee will consult with the City during the City's efforts to renovate and equip Symphony Hall for use as a government access studio. Grantee shall

August 6, 1997

provide the City with a fully functioning studio at the Symphony Hall site as described in Appendix

2. Nothing in this Section shall be deemed to be a payment that constitutes a franchise fee under 47 U.S.C. § 542.

6.(d)(4) Grantee shall have on staff during the term of its Franchise, a minimum of 12 full-time PEG producers. Grantee shall not reduce the number or alter the mix of such producers without the prior written consent of the City. If the Grantee administers public access, Grantee shall have on staff a minimum of 6 full-time producers who will be solely committed to public access operation and training and will have no other local origination responsibility.

6.(d)(5) The City may co-locate I-Net and PEG access equipment as reasonably necessary in Grantee's buildings and structures. Grantee may, at its option, provide for placement of the equipment in its buildings in convenient areas solely for City use discrete from Grantee's equipment.

6.(e) *Costs Not Franchise.* Any cost to the Grantee associated with capital requirements for PEG Use required under this Ordinance (including the provision of the I-Net and support therefor) and payments made to third parties other than the City, if any, are not franchise fees, and fall within one or more of the exceptions in 47 U.S.C. § 542.

7. Consumer Protection Provisions.

7.(a) *General Provisions.* Grantee must satisfy the consumer protection provisions set forth in the Administrative Code and those that are established by the City from time to time. In addition, Grantee shall at all times satisfy any additional or stricter requirements established pursuant to Applicable Law including, without limitation, FCC customer service standards and consumer protection laws.

7.(b) *Telephone and Office Availability*

August 6, 1997

7.(b)(1) Grantee shall maintain its office within the City limits throughout the term of its Franchise. In the event Grantee decides to change the location of its office from 360 Central Avenue, it shall provide the City and its Subscribers, to the extent permitted by State law, forty-five (45) days prior written notice. Such notice to Subscribers may be printed on Subscriber bills.

7.(b)(2) The Grantee's office shall be open for walk-in traffic at least ten hours per day Monday through Saturday (except legal holidays) to allow Subscribers to request service, pay bills, and conduct other normal business. To the extent permitted by State law, the Grantee shall perform service calls, installations, and disconnects at least ten hours per day Monday through Saturday, except legal holidays, provided that Grantee shall respond to outages twenty-four (24) hours a day, seven (7) days a week. . To the extent permitted by State law, the Grantee shall establish a publicly listed local toll-free telephone number. The phone must be answered by customer service representatives or agents of the Grantee 24 hours per day, except legal holidays, for the purpose of receiving requests for service, inquiries, and complaints from Subscribers. Phones shall be answered in accordance with Section 7(b)(3).

7.(b)(3) To extent permitted by State law, the telephone answering time shall not exceed thirty (30) seconds or four (4) rings, and the time to transfer the call to a customer service representative (including hold time) shall not exceed an additional thirty (30) seconds. Under normal operating conditions, this standard shall be met ninety-nine percent (99%) of the time, measured quarterly. Under normal operating conditions customers will receive a busy signal less than three percent (3%) of the time. When the business office is closed on legal holidays, an answering service capable of receiving and recording service complaints and inquiries shall be employed. The answering service shall comply with the same telephone answering time standard set forth in this Section 7(b)(3).

7.(c) *Scheduling Work.*

7.(c)(1) To the extent permitted by State law, all appointments for service, installation, or disconnection shall be specified by date. Grantee shall specify a specific time at which the work shall be done, or offer a choice of time blocks, which shall not exceed four (4) hours in length.

August 6, 1997

Grantee may also, upon request, schedule service installation calls outside normal business hours, for the express convenience of the customer. If at any time an installer or technician anticipates being late for an appointment and believes it will not be able to make a scheduled appointment time, an attempt to contact the customer will be made prior to the time of appointment and the appointment rescheduled at a time convenient to the customer, if rescheduling is necessary. It is the Grantee's burden to prove that it kept the appointment.

7.(c)(2) To the extent permitted by State law, the Grantee shall offer and fully describe to Subscribers who have experienced a missed appointment (where the missed appointment was not the Subscriber's fault) that the Subscriber may choose between the following options: (a) installation free of charge, if the appointment was for installation for which a fee was to be charged; or (b) if an installation was to have been provided free of charge, or for other appointments such as service connection or repair, the Subscriber shall receive two (2) months of the most widely subscribed-to service tier free of charge.

7.(c)(3) Upon request of a disabled or handicapped Subscriber, Grantee shall arrange for pickup and/or replacement of converters or other Grantee equipment at the Subscriber's address or by a satisfactory equivalent (such as the provision of a postage-prepaid mailer).

7.(c)(4) To the extent permitted by State law, the City requires that under normal operating conditions, requests for service, repair or maintenance must be acknowledged by a trained customer service representative within twenty-four (24) hours, or prior to the end of the next business day, whichever is earlier. Grantee shall respond to all other inquiries (including billing inquiries) within three (3) business days of the inquiry or complaint.

7.(c)(5) To the extent permitted by State law, the City requires that under normal operating conditions, repairs and maintenance for outages or service interruptions must be completed within twenty-four (24) hours after the outage or interruption becomes known to Grantee where the Grantee has adequate access to facilities to which it must have access in order to remedy the problem. Under normal operating conditions, work to correct all other service problems must be begun by the next business day after notification of the service problem, and must be completed

August 6, 1997

within five (5) business days from the date of the initial request. When normal operating conditions do not exist, Grantee shall complete the work in the shortest time possible.

7.(c)(6) To the extent permitted by State law, the Grantee shall not cancel a service or installation appointment with a customer after the close of business on the business day preceding the scheduled appointment.

7.(c)(7) To the extent permitted by State law, under normal operating conditions, the standards of paragraphs (c)(4) and (c)(5) of this section shall be met at least ninety-nine percent (99%) of the time, measured on a quarterly basis.

7.(c)(8) To the extent permitted by State law, the City requires that under normal operating conditions, the installation times for requests for additional outlets, service upgrades or other connections (e.g., DMX, VCR, A/B switch) separate from the initial installation will be performed within seven (7) business days after an order has been placed. This installation time standard will be met no less than ninety-nine percent (99%) of the time measured on a quarterly basis.

7.(d) *Notice to Subscribers.*

7.(d)(1) To the extent permitted by State law, Grantee shall provide each Subscriber at the time service is installed, clear and accurate written information: (i) on placing a service call, filing a complaint, or requesting an adjustment (including when a Subscriber is entitled to refunds for outages and how to obtain them); (ii) showing the telephone number of the State Board of Public Utilities and of the City of Newark Cable Television Monitoring Office; (iii) providing a schedule of rates and charges, channel positions, services provided, a copy of the service contract, delinquent Subscriber disconnect and reconnect procedures; (iv) notifying Subscribers of the availability of parental control devices; and (v) describing any other of the Grantee's policies in connection with its Subscribers. In the case of telephone orders, Grantee shall take appropriate steps to ensure that price terms are clearly and accurately disclosed to potential customers in advance of taking the order.

7.(d)(3) To the extent permitted by State law, Grantee shall maintain a file open for public inspection containing all notices provided to Subscribers under these customer service standards, as well as all promotional offers made to Subscribers. The notices and offers shall be kept in the file for at least one year from the date of such notice or promotional offer.

7.(f) *Billing.* To the extent permitted by State law, the Grantee shall comply with the following

7.(f)(1) Grantee's initial billing statement after a new installation or service change shall be prorated to the number of days of service actually provided in the billing period and shall clearly state any security deposit.

7.(f)(2) Grantee's billing statement must be clear, concise and understandable, must itemize each category of service and equipment billed to the Subscriber and must state clearly the charge therefor.

August 6, 1997

7.(f)(3) Grantee's billing statement must show a specific payment due date in accordance with Section 14:18-3.9 of the Administrative Code. A late fee or administrative fee may not be imposed for payments before the due date. Subscribers shall not be charged a late fee or otherwise penalized for any failure by Grantee, including failure to timely or correctly bill the Subscriber, or failure to properly credit the Subscriber for a payment timely made.

7.(f)(4) Grantee's bill must permit a Subscriber to remit payment by mail or in person at the Grantee's local office.

7.(f)(5) Credits to Subscribers for outages, determined in accordance with Section 14.18-3.5 of the Administrative Code, shall be issued no later than (i) the earlier of the Subscriber's next billing cycle following resolution of the refund request, or thirty (30) days; or (ii) the date of return of all equipment to Grantee, if cable service has been terminated.

7.(f)(6) Credits for cable service shall be issued no later than the Subscriber's next billing cycle after the determination that the credit is warranted.

7.(g) *Disconnection/Downgrades* To the extent permitted by State law, the Grantee shall comply with the following:

7.(g)(1) A Subscriber may terminate service at any time.

7.(g)(2) Grantee shall promptly disconnect from the Subscriber Network or downgrade any Subscriber who so requests. No period of notice prior to voluntary termination or downgrade of Cable Service may be required of Subscribers by Grantee. No charge may be imposed for any voluntary disconnection, and downgrade charges must comply with the requirements of Applicable Law; provided that, in connection with bona fide promotional offers, disconnects and downgrades of Cable Service shall be in accordance with Section 14:18-3.15 of the Administrative Code.

7.(g)(3) Any security deposit and/or other funds due a Subscriber that disconnects or downgrades service shall be returned to the Subscriber within thirty (30) days or in the next billing

August 6, 1997

cycle, whichever is later, from the date disconnection or downgrade was requested except in cases where the Subscriber does not permit the Grantee to recover its equipment, in which case the amounts owed shall be paid to Subscribers within 30 days of the date the equipment is recovered, or in the next billing cycle, whichever is later.

7.(h) *Parental Control.*

To the extent permitted by State law, the Grantee must provide parental control devices at no charge to all Subscribers who request them. The devices must enable the Subscriber to block the video and audio portion of any channel or channels of programming.

8. Franchise Fee.

8.(a) *Amount of Franchise Fee.* Grantee shall pay to the City a franchise fee in an amount equal to two percent (2%) of the Grantee's Gross Revenues from Cable Services as compensation for its use of the Public Rights-of-Way.

9.(g)(1) To the extent permitted by Applicable Law, the Grantee shall, at its sole cost and expense, indemnify, hold harmless, and defend the City, its officials, boards, commissions, commissioners, agents, and employees, against any and all claims, suits, causes of action, proceedings, and judgments for damages or equitable relief arising out of the construction, maintenance, or operation of its Cable System and/or I-Net; arising out of copyright infringements or a failure by the Grantee to secure consents from the owners, authorized distributors, or franchisees of programs to be delivered by the Cable System; arising out of the conduct of the Grantee's business in the City; or in any way arising out of the Grantee's enjoyment or exercise of the Franchise granted hereunder, regardless of whether the act or omission complained of is authorized, allowed, or prohibited by Applicable Law, except in cases where liability is (i) solely

August 6, 1997

caused by the gross negligence of the person or persons covered by the indemnity; or (ii) results from electronic information or programming contributed or produced by the City and transmitted over the Cable System or I-Net.

9.(g)(2) Without limiting the effect of Section 9.(g)(1), the Grantee shall, at its sole cost and expense, fully indemnify, defend, and hold harmless the City, and in its capacity as such, the officers, agents, and employees thereof, from and against any and all claims, suits, actions, liability, and judgments for damages or otherwise subject to Section 638 of the Cable Act, 47 U.S.C. § 558, arising out of or alleged to arise out of the installation, construction, operation, or maintenance of Grantee's Cable System, including but not limited to any claim against the City or Grantee for invasion of the right of privacy, defamation of any Person, or the violation or infringement of any copyright, trade mark, trade name, service mark, or patent, or of any other right of any Person. This indemnity does not apply to electronic information or programming carried on any PEG Channel, the I-Net, or channels leased pursuant to 47 U.S.C. § 532, except for programming contributed or produced by the Grantee.

9.(g)(3) The City shall notify the Grantee in writing of any matter subject to the indemnity in which the Grantee is not a named defendant or plaintiff. The Grantee shall employ competent counsel, reasonably acceptable to the Corporation Counsel and the indemnity provision includes, but is not limited to, reimbursement to the City for any additional attorneys' fees it may separately incur in defending against any such claim, suit, or proceeding if there is a conflict between the City's and Grantee's interests with respect to such claim, suit or proceeding.

10. Performance Guarantees and Remedies.

10.(a) *Security Fund.*

10.(a)(1) Prior to the grant hereunder becoming effective, the Grantee shall post with the City a cash security deposit to be used as a security fund to ensure the Grantee's faithful performance of and compliance with all provisions of this Ordinance and other Applicable Law, and compliance with all orders, permits, and directions of the City, and the payment by the Grantee of any claims, liens, fees, or taxes due the City which arise by reason of the construction, operation,

August 6, 1997

or maintenance of the Cable System. The amount of the security fund shall be equal to five hundred thousand dollars (\$500,000).

10.(a)(2) In lieu of a cash security fund, Grantee may file and maintain with the City an irrevocable letter of credit with a major bank located in the City in the amount specified in the preceding paragraph to serve the same purposes as set forth therein. The letter of credit shall be payable upon the City filing a statement with the bank that the City believes Grantee owes the amount of money to be drawn under the terms of this Franchise. The letter of credit must be in a form acceptable to the City. Said letter of credit shall remain in effect for the full term of the Franchise plus an additional six (6) months thereafter. The letter of credit shall provide for thirty (30) days' prior written notice to the City of non-renewal or prior to any alteration of its terms. Neither the filing of a letter of credit with the City, nor the receipt of any funds recovered by the City thereunder, shall be construed to excuse faithful performance by the Grantee or limit the liability of the Grantee under the terms of its Franchise for damages.

10.(a)(3) The rights reserved to the City with respect to the security fund are in addition to all other rights of the City, whether reserved by this Ordinance or authorized by other Applicable Law, and no action, proceeding, or exercise of a right with respect to such security fund or letter of credit will affect any other right the City may have.

10.(a)(4) The City may draw on the security fund or letter of credit if the Grantee fails to make timely payment to the City of any amount due under the terms of its Franchise, fails to make timely payment to the City of any amounts due under a Franchise Agreement or Applicable Law, fails to make timely payment to the City of any taxes due, or fails to compensate the City within ten (10) days of written notification that such compensation is due, for any damages, costs, or expenses the City suffers or incurs by reason of any act or omission of the Grantee in connection with its performance under this Ordinance or Applicable Law and the City determines that such act or omission can be remedied by an expenditure of the security.

10.(a)(5) Within three (3) days of a withdrawal from the security fund or under the

August 6, 1997

letter of credit, the City shall mail, by certified mail, return receipt requested, written notification of the amount, date, and purpose of such withdrawal to the Grantee.

10.(a)(6) No later than thirty (30) days after mailing of notification to the Grantee by certified mail, return receipt requested, of a withdrawal from the security fund or under the letter of credit, the Grantee shall deliver to the City for deposit in the security fund an amount equal to the amount withdrawn or evidence of replenishment of the letter of credit in such amount. Failure to make timely delivery of such amount to the City or to replenish the letter of credit shall constitute a material violation of this Ordinance.

10.(a)(7) Upon expiration or termination of the Franchise, the balance then remaining in the Security Fund shall be withdrawn by the City and paid to the Grantee within ninety (90) days of such termination, provided that there are then no outstanding obligations secured by the Security Fund, in which case the amount paid may be reduced by the amount of the outstanding obligations; provided that, the Security Fund shall be deemed forfeited if the Franchise is revoked or the Cable System is abandoned.

10.(b) *Performance Bond.*

10.(b)(1) Prior to any Cable System construction, rebuild, or other work in the Public Rights-of-Way, Grantee shall establish in the City's favor a performance bond in an amount equal to sixty percent (60%) of the total cost of the work to be performed pursuant to this ordinance to ensure the Grantee's faithful performance of the construction, rebuild, or other work.

10.(b)(2) In the event Grantee fails to complete the Cable System construction, rebuild, or other work in the Public Rights-of-Way in a safe, timely, and competent manner and, in the case of the Cable System rebuild, in accordance with this Ordinance, there shall be recoverable, jointly and severally from the principal and surety of the bond, any damages or loss suffered by the City as a result, including the full amount of any compensation, indemnification, or cost of removal or abandonment of any property of the Grantee, or the cost of completing or repairing the Cable System construction, rebuild, or other work in the Public Rights-of-Way, plus a reasonable

August 6, 1997

allowance for attorneys' fees, up to the full amount of the bond. The City may also recover against the bond any amount recoverable against the security fund where such amount exceeds that available under the security fund.

10.(b)(3) Upon completion of the Cable System construction, rebuild, or other work in the Public rights-of-way and payment of all construction obligations of the Cable System to the satisfaction of the City, the City shall eliminate or reduce the bond after a time appropriate to determine whether the work performed was satisfactory, which time shall be established considering the nature of the work performed. In the case of the Cable System rebuild, the performance bond shall be released six (6) months after completion of the rebuild. The City may subsequently require a new bond or an increase in the bond amount for any subsequent construction, upgrade, or other work in the Public rights-of-way.

10.(b)(4) The performance bond shall be issued by a surety with an A-1 or better rating of insurance in Best's Key Rating Guide, Property/Casualty Edition; shall be subject to the approval of the City; and shall contain the following endorsement:

"This bond may not be canceled, or allowed to lapse, until sixty (60) days after receipt by the City, by certified mail, return receipt requested, of a written notice from the issuer of the bond of intent to cancel or not to renew."

10.(c) *Failure Constitutes Material Violation.*

Failure to maintain the security fund or letter of credit, and the performance bond shall constitute a material violation of this Ordinance.

10.(d) *Liquidated Damages* 10.(d) *Liquidated Damages.* Because the Grantee's failure to comply with provisions of this Ordinance will result in injury to the City, and because it will be difficult to estimate the extent of such injury, the following violations shall be subject to the liquidated damages set forth below, which represent the best estimate of the damages resulting from the specified injury. To maintain that estimate, the liquidated damage amounts are in 1995 dollars and shall be increased each year by the increase in the U.S. City Average of the Consumer Price Index.

August 6, 1997

10.(d)(1) For failure to substantially complete the Cable System rebuild in accordance with the schedule set forth in Section 6.B: \$1/day for each affected Subscriber for each day the violation continues;

10.(d)(2) For failure to comply with requirements for support of public, educational, and governmental use of the Cable System: \$500/day for each violation for each day the violation continues;

10.(d)(3) For violation of customer service standards, not including response to individual customers: \$500 per violation; and

10.(d)(4) For all other material violations of this Ordinance for which actual damages may not be ascertainable: \$500/day for each violation for each day the violation continues.

10.(e) *Remedies Cumulative*

10.(e) *Remedies Cumulative.* All remedies under this Ordinance are cumulative unless otherwise expressly stated. The exercise of one remedy shall not foreclose use of another, nor shall the exercise of a remedy or the payment of liquidated damages or penalties relieve the Grantee of its obligations to comply with this Ordinance. Remedies may be used singly or in combination; in addition, the City may exercise any rights it has at law or equity. Except that, the City is not entitled to recover damages for the same injury under two separate sections where doing so would result in a double recovery.

10.(f) *Relation to Insurance and Indemnity Requirements.* Recovery by the City of any amounts under insurance, the performance bond, the letter of credit, or otherwise does not limit the Grantee's duty to indemnify the City in any way; nor shall such recovery relieve the Grantee of its obligations under this Ordinance, limit the amounts owed to the City, or in any respect prevent the City from exercising any other right or remedy it may have.

11. No Evasion.

The Grantee shall not take any action to evade any provision of this Ordinance. This provision shall be read to prohibit, among other things, the Grantee requiring any Subscriber to waive any right (including but not limited to privacy rights) as a condition of obtaining service.

12. Rights of Individuals Protected

12.(a) *Discriminatory Practices Prohibited.*

12.(a)(1) Grantee shall not deny service, deny access, or otherwise discriminate against Subscribers, programiners, or residents of the City on the basis of race, color, creed, national origin, sex, age, conditions of physical handicap, religion, ethnic background, marital status, or sexual orientation.

12.(a)(2) Grantee shall not discriminate among Persons or the City or take any retaliatory action against a Person or the City because of that entity's exercise of any right it may have under federal, state, or local law, nor may the Grantee require a Person or the City to waive such rights as a condition of taking service.

12.(a)(3) Grantee shall not deny access or levy different rates and charges on any group of potential residential cable Subscribers because of the income of the residents of the local area in which such group resides.

12.(a)(4) Except to the extent the City may not enforce such a requirement, Grantee is prohibited from discriminating in its rates or charges or from granting undue preferences to any Subscriber, potential Subscriber, or group of Subscribers or potential Subscribers; provided, however, that Grantee may offer temporary, bona fide promotional discounts in order to attract or maintain Subscribers, so long as such discounts are offered on a non-discriminatory basis to similar classes of Subscribers throughout the Franchise Area; and Grantee may offer discounts for the elderly, the disabled, or the economically disadvantaged; and such other discounts as it is expressly entitled to provide under federal law, if such discounts are applied in a uniform and consistent manner. Grantee shall comply at all times with all applicable federal, state, and City laws, and all executive and administrative orders relating to non-discrimination.

12.(b) *Equal Employment Opportunity.* Grantee shall not refuse to employ, discharge from employment, or discriminate against any Person in compensation or in terms, conditions, or privileges of employment because of race, color, creed, national origin, sex, age, conditions of

August 6, 1997

physical handicap, religion, ethnic background, marital status, or sexual orientation. Grantee shall comply with all federal, state, and local laws and regulations governing equal employment opportunities, as the same may be from time to time amended.

12.(c) *Subscriber Privacy.*

12.(c)(1) To the extent permitted by State law, the Grantee shall at all times protect the privacy of all Subscribers pursuant to the provisions of Section 631 of the Cable Act, 47 U.S.C. § 551. Grantee shall not condition Subscriber service on the Subscriber's grant of permission to disclose information which, pursuant to federal or state law, cannot be disclosed without the Subscriber's explicit consent.

12.(c)(2) To the extent permitted by State law, neither Grantee nor its agents or employees shall, without the prior and specific written authorization of the Subscriber involved, sell or otherwise make available for commercial purposes the names, addresses, or telephone numbers of any Subscriber or Subscribers, or any information that identifies the individual viewing habits of any Subscriber or Subscribers.

13. Rates.

To the extent permitted by State law, the Grantee shall establish and maintain rates for basic service and equipment in accordance with FCC regulations or as required by state and local ordinances. The City reserves all rights to implement and impose regulation of Grantee's rates and charges to the maximum extent permitted by law, and may do so by amendment to this Ordinance, by separate ordinance, by amendment to a Franchise Agreement, or in any other lawful manner.

14. Designation of Complaint Officer. The Office of the City Clerk is hereby designated as the Complaint Officer, in accordance with Section 48:5A-26 of the Cable Law.

15. Miscellaneous

15.(a) *Compliance With Laws* 15.(a) *Compliance With Laws.* Grantee shall comply with all Applicable Laws heretofore and hereafter adopted or established during the entire term of its Franchise.

15.(b) *Captions.* The captions to sections throughout this Ordinance are intended solely to facilitate reading and reference to the sections and provisions of this Ordinance. Such captions shall not affect the meaning or interpretation of this Ordinance.

15.(c) *No Recourse Against the City.* Without limiting such immunities as the City or other Persons may have under Applicable Law, Grantee shall have no monetary recourse whatsoever against the City or its officials, boards, commissions, agents or employees for any loss, costs, expense or damage arising out of any provision or requirement of this Ordinance or because of the enforcement of this Ordinance or the City's exercise of its authority pursuant to this Ordinance or other Applicable Law, unless the same shall be caused by criminal acts or by willful or gross negligence.

15.(d) *Connections to Cable System; Use of Antennae.*

15.(d)(1) Subscribers shall have the right to attach devices to Grantee's System to allow them to transmit signals or services for which they have paid to video cassette recorders, receivers, and other terminal equipment. Subscribers also shall have the right to use their own remote control devices and converters, and other similar equipment, and Grantee shall provide information to consumers which will allow them to adjust such devices so that they may be used with the Grantee's System.

15.(d)(2) Grantee shall not, as a condition of providing service, require a Subscriber or potential Subscriber to remove any existing antenna, or disconnect an antenna except at the express direction of the Subscriber or potential Subscriber, or prohibit or discourage a Subscriber from installing an antenna switch, provided that such equipment and installations are consistent with Applicable Law.

15.(e) *Calculation of Time.* Unless otherwise indicated, when the performance or doing of any act, duty, matter, or payment is required under this Ordinance, and a period of time or duration for the fulfillment of doing thereof is prescribed and is fixed herein, the time shall be computed so as to exclude the first and include the last day of the prescribed or fixed period of duration time.

15.(f) *Severability.* If any term, condition, or provision of this Ordinance shall, to any extent, be held to be invalid or unenforceable, the remainder hereof shall be valid in all other respects and continue to be effective; provided, however, that if such invalidation is material to this municipal consent ordinance, the parties shall negotiate in good faith to reconstitute the municipal

August 6, 1997

consent ordinance in a form that is, to the maximum extent possible, consistent with the original intent of the Grantee and the City. In the event of a subsequent change in Applicable Law so that the provision which had been held invalid is no longer invalid, said provision shall thereupon return to full force and effect without further action by the City and shall thereafter be binding on the Grantee and the City.

15.(g) *Waiver.* The City and the Grantee agree and waive any past, present or future claim to the contrary, that all of the promises and obligations in this municipal consent ordinance are lawful and enforceable under law as of the date of signing of said ordinance.

16. This ordinance shall take effect upon final passage and publication in accordance with the laws of the State of New Jersey.

September 3, 1997

Alcoholic Beverages, Chapter 1, General Provisions, Section 1 (B), Licensed Premises: Opening and Closing Hours, of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented." (Amends hours of Plenary Retail Distribution Licenses, Operating Hours)?

The City Clerk read the following veto message from Mayor Sharpe James:

"Dear Council Members:

In the best interest of all the citizens of Newark, especially children and senior citizens, the clergy and business community, I must respectfully veto your ordinance as stated above allowing Newark taverns to extend the hours for which alcoholic beverages for off premise consumption can be sold.

Newark already has far too many taverns and too many persons drinking and loitering on street corners creating a nuisance, debris and garbage, poor image and fueling incidents of crime and drug abuse. Anyone who can't purchase enough liquor under the existing laws allowing taverns to sell between the hours of 9:00 a.m. and 10:00 p.m. should not be encouraged to purchase more liquor, and most certainly not given the right to take it out ending up drinking on street corners between the hours of 10:00 p.m. to 3:00 a.m. Nor should we burden our police with necessary enforcement issues due to irresponsible legislation for special interest groups. As Mayor, I have the courage to say no to special interest groups.

Just think of the horror that those now selling drugs on street corners after midnight with your new law will be able to quench their thirst by "legally" purchasing a six pack of beer or wine and thus energize themselves in continuing to peddle their poison; to destroy the lives of another generation of young people.

The new liquor law would greatly harm Newark's renaissance, endanger the lives of the young and old, tarnish our improving image, ignore the sentiments of the good people of Newark and promote profit over progress. I do not share your philosophy. I do not support your new liquor law. You are unequivocally wrong to place our citizens and city at greater risk.

For these reasons heretofore stated, I, therefore, must respectfully veto said ordinances in the best interest of all the citizens of Newark. The betterment of Newark must be our highest priority.

I further call upon the Honorable Members of the Newark Municipal Council to give progress a chance. To give hope a chance. My veto is affirmed.

Again, thank you for the opportunity to respond."

A motion to uphold the Mayor's veto of this ordinance was made by Council Member Rice, seconded by Council Member Martinez and declared adopted by President Bradley by the following votes:

(Business Administrator Grant and First Assistant Corporation Counsel Watson met with Council September 3, 1997)

September 3, 1997

Temporary President Martinez requested the City Clerk to read into the record, letter from Police Director Joseph J. Santiago, dated August 28, 1997:

The City Clerk read the following letter from Police Director Joseph J. Santiago:

"Pursuant to your correspondence of August 7, 1997 relative to the above-referenced matter, I have reviewed the supplemental affidavits submitted by Siegie's Corp., MTS Towing, Inc. And Brookwood Auto and Body Shop (collectively hereafter referred to as "the towers") and my recommendations follow.

A review of the original application and supplemental affidavits submitted by the towers revealed some inconsistencies that are noteworthy and factor significantly in the decision rendered.

Siegie's Corp.

The application submitted by Siegie's Corp. in January 1995 lists the 543 Avenue P site as consisting of 4200 square feet. In their supplemental affidavit, the same location is reported as being one (1) acre. Similarly, the 465 Raymond Boulevard location was listed as two (2) acres in the 1995 application and three (3) acres in the supplemental affidavit. Clearly this discrepancy needs to be addressed by Siegie's prior to any further action being taken on their application.

In addition, Siegie's and the other towers refer to an industry standard for calculating the number of vehicles that may be stored on one (1) acre of land. That formula is 1 acre=43,560 sq. ft. divided by 128 sq. ft.=340 vehicles per acre. However, *Revised Ordinance 27:5-3* mandates that "In no event shall the dimensions of any parking stall be less than 20 feet long and 9 feet wide [180 sq. ft.] for standard size cars...". Further, I contend that a minimum of 200 sq. ft. should be required for each stall thus allowing for access to the stored vehicles by wreckers and flat-beds.

Applying the "industry" standard to the locations proposed in Siegie's original application would result in the storage of 32 vehicles at the 543 Avenue P site and 680 vehicles at 465 Raymond Boulevard. Using the recommended minimum standard of 200 sq. ft. per stall reduces the storage capacity to 21 vehicles and 435 vehicles, respectively.

I, therefore, recommend the Avenue P location be rejected since it fails to meet the 50 vehicle minimum storage requirement of the rotational towing ordinance. The Raymond Boulevard location could be approved subject to the conditions imposed by M.C. Alexander at the responsibility hearing of July 25, 1997.

MTS Towing, Inc.

MTS also adopted the "industry" standard for calculating the number of vehicles they certify may be stored at the Tidewater Bailing facility, identified as 26 St. Charles Street. Utilizing that standard, a maximum of 850 vehicles could be stored at the location. The recommended minimum standard formula would result in the storage of a maximum of 544 vehicles. There appears to be a discrepancy with respect to the reported acreage at the location; the application lists 2.5 acres while the Option Agreement attached thereto and appended to the supplemental affidavit indicates a 2-acre parcel. The storage calculations above are based on a 2.5-acre parcel. If the facility is actually 2 acres, the resulting storage would be 680 vehicles (industry standard) or 435 vehicles (recommended minimum standard). In either case, the reported acreage and resulting storage space would meet the minimum requirements set forth in the ordinance.

An issue that causes me great concern that may not have been previously brought to your attention involves an investigation conducted by the South District Detective Squad of stolen Newark Police Department property recovered at MTS premises. The investigation was conducted from February to April 1996 and resulted in the arrest of David Kelly, the General Manager of MTS and the recovery of three (3) stolen police radios and microphones and a police vehicle light bar. Mr. Kelly provided a sworn statement that he obtained the stolen items from Henry Purefoy and John Shultz. To my knowledge, the matter is still pending.

Finally, the Tidewater Bailing facility has previously been cited for environmental violations that may factor in its suitability as a storage location. I lack sufficient expertise to comment on this issue and merely raise it for your consideration.

Based on the foregoing, I can only recommend conditional approval of MTS since they meet the minimum storage requirements of the ordinance. However, I would not recommend naming them to the Official Rotational Towers list before the disposition of the criminal charges.

Brookwood Auto and Body Shop

The original application submitted by Brookwood in 1995 lists six (6) properties to be considered for storage locations. The supplemental affidavit proposes two new sites not contained in the original application. They are 132-40 Evergreen Street and McClellan Street and Floral Avenue. Since the locations were not previously submitted, I believe it inappropriate for the Police Department to now consider them. With respect to the locations listed in the original application, only 512-518 South Orange Avenue, 4-20 Ferdinand Street meet the minimum space and location requirements of the ordinance. As to 55 East Center Street, Orange, the Orange Police Department report having no such address in their jurisdiction. However, the square footage reported would also meet the minimum space requirements of the ordinance.

I recommend rejecting the two new proposed locations for the reason stated above.

Other Considerations

Since my appointment as Police Director, I have had occasion to review many of the issues surrounding the City's towing operations and the alternative options to the existing structure. In so doing, I have analyzed the public safety and quality of life concerns that would inevitably be affected by the implementation of an inadequate towing operational plan. Among my concerns are utilizing towers who have insufficient storage space, equipment and/or personnel to meet the public safety needs of the City. Department statistics evidence that anywhere from 3000 to 4000 vehicles are being stored on our current tow lots on any given day. Conservative estimates reveal that the Police Department tows approximately 70 cars daily. Unfortunately, the ordinance presently in effect only requires storage space for 50 cars. Thus the obvious problem created is that any one of our rotational towers could have their facility filled to required capacity before the day is done. The Department would then find its officers waiting inordinate periods of time for the arrival of a tow truck whose lot had vacancies resulting in response time delays for dispatched calls, thereby effectively hampering all the strides made to date in responding to citizens' calls for service. This is not a sacrifice I am prepared to make at the citizens expense. Unless and until the ordinance is amended to reflect adequate storage requirements in a workable rotational plan, I am unable to approve the towers without reservation.

I would welcome an opportunity to explore some viable towing options with you at your convenience. If I may be of further assistance, please contact me."

5. The tax abatement hereby granted shall be in effect for a period of not more than five (5) years commencing from the date of the issuance of a Certificate of Occupancy and expiring five (5) years thereafter, unless terminated sooner pursuant to the requirements of the Agreement. It will be the burden of the aggrieved party to show that the decision appealed was clearly erroneous.

During the pendency of the appeal, the effect of the decision being appealed shall be stayed unless the Division of Tax Abatement and Special Taxes provides a certification to the Business Administrator stating that a stay would cause an immediate threat to public safety or an immediate hazard to life or property.
